Directions: Complete name of home room teacher, school name, school year, and screening period (e.g., fall, winter, spring). List names of all students in classroom. List most recent data results. Using color key above, highlight students per current services/placement. Provide all team members with copies of this form during the Data Review Team meetings. As Data Review Team meetings are held, use the data in this form along with review of classroom performance to determine intervention needs. At a minimum, Data Review Team meetings should include classroom teacher(s) and interventionist(s).
